

## Course Description

**Faculty: Educational Sciences**

**Study program: Professional Master in Teaching**

**Course Title: Professional Practice**

**Course Credits: 6 ECTS**

**Language of Instruction: Albanian**

**Course Description:** Professional Practice aims to equip students with the necessary professional competencies to successfully fulfil their mission as a teacher. It aims to develop students' teaching skills, enable students to observe various aspects of collaborative teaching and learning, and observe the application of theoretical knowledge in practice in the teaching/learning process. Students will attend lessons taught by mentor teachers in primary education classes. They will keep regular notes on the stages of lesson development from mentor teacher, and teaching methods and give their opinion on the lessons observed.

**Objectives of the course:** To enable students to observe the lessons developed by the mentor teachers, to draw up the diary of a teaching day and to reflect on the ways of developing different subjects by the mentor teacher.

### **Course Requirements:**

Participation in lessons in primary education classes  
Student's personal portfolio:  
Daily hours observed by the student  
Analysis of the lesson conducted by the teacher-mentor  
Description of the teacher's basic documentation  
Student reflection on observational practice

### **Grading:**

Daily hours observed by the student: 40 %  
Analysis of the lesson conducted by the teacher-mentor 30 %  
Description of the teacher's basic documentation 20 %  
Student reflection on observational practice 10 %

### **Course Schedule:**

Four hours a day for 15 weeks.  
Participation in professional practice is mandatory.
